Virginia. At a Meeting of the Board of Supervisors of Rockingham County, held at the Court House thereof on Wednesday June 21st 1893.

Present Geo. R. Nicholas Chairman.
John M. Palmer, D. N. Washington, D. H. Moore and Charles E. Fahrney.

The Board at a former meeting having agreed to submit to Hon John Paul as referee the matter of Controversy between the Board of Supervisors of Rockingham County and Messrs. Wm B. Compton & John T. Harris Jr. Attorneys Concerning their fee for Services rendered the said County of Rockingham in the matter of litigation against Samuel R. Sterling late Treasurer of said County and his Sureties there never having been a positive agreement between the said attorneys and the Board of Supervisors in office at the time they were employed, as to what their Compensation or fee should be but had agreed that the same should be refered to some judge of a Court if they failed to agree, And the same having this day in accordance with said agreement been Submitted to Hon John Paul referee as aforesaid, And the said referee having rendered his decision in writing as follows. to-wit

The Matter of difference between the Board of Supervisors of Rockingham County of the one part and John T. Harris & Wm. B. Compton Attorneys who represented the County of Rockingham in the matter pertaining to the estate of Saml. R. Sterling & his sureties late Treasurer of said County of the other part having been this day Submitted to me for final decision and having heard the evidence of both parties and arguments I am of opinion that the Charge of Fifteen per Centum upon the sum of $23.346 96 Collected & Secured by said Counsel to the County as stated in their acct rendered - that being the sum stated less $382. which

on the Suggestion of said Attorneys is proper to be eliminated from said account – is a reasonable and proper fee to said Davis & Compton for their services to Rockingham County, it being a Contingent fee. Given under my hand & seal this 21st June 1893.

John Paul (Seal)"

On motion by unanimous vote of the Board the same is accepted as a final settlement of said Controversy, and the Clerk of this board is ordered to issue to the said Compton & Davis a warrant upon the Treasurer of this County for the Sum of $77.96 the same being the balance in full of their Claim against said County for their services aforesaid in accordance with the aforesaid decision of the said referee.

The Members of the Board having met on yesterday as a Committee for Ring to the repairing of the old or building a new Jail for this County. and having requested Hon. T. N. Brown. C. M. Dollingsworth. J. E. Lincoln S. P. M. Miller Chas. M Roleston J. M. Neff. and Mr. Wm. M. Bucher to make an examination of the present Jail as to Safety health &c. This day filed their reports, and ordered the same to be spread upon the Minutes

Question: Please state whether you have visited the Jail of Rockingham County to day at the Solicitation of the Board of Supervisors of Rockingham County for the purpose of Examining the present Jail both as to Safety and health

Ans. Yes.

Question From your examination State whether or not you. Consider it advisable to build a new Jail or to repair the old one upon the Conditions mentioned in the first Question.

We the undersigned Physicians of Rockingham County who were requested to visit the Jail of said County, beg leave to state that we have done so and believe it to be a case of necessity in a Sanitary as well as an Economical

Measure to remove the present building & replace it with a new one on higher ground. The present building as well as site being so thoroughly saturated with sewerage renders it dangerous to all persons who are subjected to its influence
We believe this can be done by placing the new building in the rear of the present one on the same lot and filling up the old site with new earth.
We would further recommend that the new building be erected without a cellar or basement story, Except so far as is necessary for heating apparatus
We further suggest that the stories be not less than twelve feet high in the clear in Each of the apartments

Harrisonburg V. March 22/94.

At the Solicitation of the Board of Supervisors. I visited the Jail of Rockingham County to-day and after an examination of the building, am of the opinion that it would be impracticable to repair the same for the reasons,
1st. That the basement walls are of such a character as to absorb and retain dampness and germs of decease and also the floor in said basement is so low as to allow the accumulation of water and dampness under it thus forming a Cess pool for the drainage of the yard and surroundings
2nd That to build against the old residence part would be building against a broken wall on both sides where it would be almost impossible to make a good piece of work, besides the old walls are Cracked and Sprung in places and in a few years would have to be rebuilt.
3rd That to adapt the plans of a new Jail to the old residence part would necessarily interfere with the drainage of the whole building and make the Sanitary Condition of it incomplete, I am therefore of the opinion that a New Jail entire should be built all above ground, except Sufficient Cellar for Heating apparatus, and that the Stories of all the apartment should be twelve (12) feet high, and built on the most modern plan, that all foundation walls should be built of good stone laid in pure Cement Mortar, and that the floor of Heating Cellar should be Cement Sufficiently thick to prevent breaking up by water pressure from Outside,
I think another site would be preffarable but believe to build further back on the present lot would accomplish the purpose

Very Respectfully
M. M. Bucher.

The Manly Manufacturing Company of Dalton Georgia. having tendered to the Board of Supervisors. the new Jail building erected by said Company. for the County of Rockingham in the following words and figures July 31st 1895.

The Board of Supervisors
Rockingham County
Harrisonburg Va.

Gentlemen: We hereby tender the Jail building for your acceptance. having Completed all of the work in accordance with the true intent and meaning of the Specifications and in many instances we have had to do more than was Specified, in order to avoid dissatisfaction.
We are willing in addition to give the County a Bond with Security in a Satisfactory Sum Conditioned upon our removing at our expense upon the request of Supervisors at any time prior to A.D. 1900. any and all of the plastering, about which Complaint

has been made. (That is liable not to prove Satisfactory), as soon as any necessity for same shall be apparent
We are also willing to (in the same instrument) be further obligated (in reference to the Kitchen Roof. and Front Porch.), to put an additional tin roof on the former. (See resolution Nov. 2. 94.) whenever needed, and further to put an additional wood flooring upon upper porch whenever needed.
If there is any more work. that you desire done in Connection in Connection with the Contract Please Specify same in detail immediately and greatly oblige

Yours respectfully.
(Signed) Manly Mfg. Co.
by Robt. P. Manly.
President.

And J. P. Hyde. Superintendent of said building having this day filed his report before the Board, in regard to said Jail Building in the following words and figures to-wit.

Harrisonburg Va. August 7th 1895.

To the Board of Supervisors.
Of Rockingham County
Gentlemen

Inasmuch as the Manly Manufacturing Company. the Contractors for the Building and Completion of a New Jail and Jailors residence for your County. have tendered the said building for your acceptance and Claiming that the same has been Completed as to all the work in accordance with the Specifications.
As Superintendent of said building. I beg leave to report in what particulars in my opinion, the said Manly Manufacturing Company have failed to Comply with its Contract, and the plans and Specifications. forming a part of the same. and in doing so will have to embody in this report the reports made from time to time as the work progressed.
1st The following is the report made by one to the Board as of March 11. 1895

Harrisonburg Va. March 11. 1895.

"To the Board of Supervisors of Rockingham County
Gentlemen

As Superintendent of the Construction of the New Jail for said County. I beg leave to report to the board. that the plastering in said Jail, and the Ceiling and roof to the Kitchen, and the Ceiling in the Second Story, on the 1st tier of Cages, in my judgment do not Comply with the Specifications, and recommend that the same be not received by the board in its present Condition. Respectfully Submitted

J. P. Hyde Supt."

As to the plastering mentioned in the above report, nothing has been done since said report to remedy the defects, which are as follows

1st That the Contractor failed to use hair in the preparation of the mortar. 2nd that the sand used was not clean Sharp Sand, but was very loamy, and 3rd Some of the plastering used was frozen before and after it was placed upon the walls, as I have been informed and in Consequence of the foregoing, the plastering does not adhere to the walls properly, but notwithstanding the Contractor had due notice of these defects, & proceeded to whitecoat the said walls.

As to the roof and Ceiling of the Kitchen, also mentioned in said report, the Contractor made some changes in the Ceiling, which I am of Opinion would answer the purpose, and make a good job. but for the Kind of roof on said Kitchen. it is made of Concrete and Cracked so that it had to be filled with putty and then painted with asbestos, which I regard as insufficient to Keep it from leaking.

As to the Ceiling in the second Story on the first tier of Cages, nothing has been done to Correct the defects as then reported, in this matter. the arches were too short to Cover the Space they were intended to fill, and the Contractor spliced a piece of iron to the flange on the Cells. which is not in accordance with the Specifications, and then Covered this with Concrete and Cement. in my judgment it is unsafe and would respectfully report against receiving any of the work mentioned above, until the Specifications have been fully Complied with.

2nd The following is my report to the board of date May 4. 1895. Viz:-

"To the Board of Supervisors of Rockingham County

Gentlemen.

As Superintendent of the Construction of the new Jail for said County. I beg leave to report to the board, that the top end beams at each end of the porch. I consider insufficient, as they are entirely too light, and have Sprung before the roof has been placed on. the porch, and the Columns are not plum or in line, and should not be accepted by the board.

Respectfully Submitted

May 4. 1895. J. P. Hyde"

Since the above report was made, the Contractor in order to remedy one of the defects mentioned in said report, drew the porch together with an iron rod, and while so held together proceeded to place the Cement on the upper floor, and then removed the rod, so that the only thing to Keep it from Springing again is the Cement floor above, which in my judgment is not Sufficient.

The floor after it was finished. Cracked which Caused it to leak, and was treated in the same manner as the Kitchen roof, and has leaked since the asbestos was placed thereon.

Owing to the fact that the upper floor of the porch is much narrower than the lower, in Case of rain or washing, the drip therefrom will fall on the lower floor. I think this Could be remedied by placing guttering around the porch, with down Spouting. the Columns of the porch are in about the same Condition as set forth in the above report of May 4/95. in view of the above facts, and also of the fact that the lower floor of said porch has already Commenced to Crack and much

of the Cement thereon has become loose, would respectfully report against accepting the said porch in its present Condition.

3rd The following is my report to the Board of date May 15th 1895.

"To the Board of Supervisors of Rockingham County.

Gentlemen

As Superintendent of the Construction of the new Jail for said County. I beg leave to report that the said Manly Mfg. Co. are not carrying out Section 35 of the Plans and Specifications in regard to plastering. which is being whitewashed and should be plastered with one Coat of Cement and plaster

May 15/95. J. P. Hyde Supt.

The above report had reference to the Cell rooms on the lower flow of said Jail, and in my judgment included the Hospital and Bath rooms and the small passage way between them, since the above report the Contractor has plastered all the rooms on this floor, except the said Hospital and Bath Rooms and the small passage way aforesaid, the only thing done to these was to whitewash the two rooms. I am still of opinion that Section 35. requires them to be finished in the same manner as the other Cell rooms, and should not be received until this is done

4th The following report was made to the Board of date June 13th 1895.

"To the Board of Supervisors.

I beg leave to make the following report, Viz: that I find the Cement floors in lower Cells and upper Cages, not as thick as the plans and Specifications require

June 13/95. J. P. Hyde. Supt.

Nothing has been done to remedy the defects set forth in above reports the 5th Clause of Section 18 of the Specifications requires all Concrete to be well rammed and Compacted, when put in place, and all water taken up with dry Cement, this the Contractor failed to do for the reason that the arches were not of Sufficient Strength to permit it being done, and in the 6th Clause of same Section it provides that the Surfacing with Portland Cement was to be done before the foundation had finally set, this the Contractor also failed to do. and by reason of said omissions the Portland Cement did not adhere to the Concrete, and will in Consequence of this. in my judgment, in the very near future have to be taken up. and replaced, as already it has Cracked and Some of it is loose. the Surfacing instead of being one and a half inches thick as required in said Specifications does not at any place exceed one inch and in many places does not exceed 3/4 inch. the above relates to all the floors in the Jail portion of said building, if however there is any difference it is in favor of the lower floor."

5th Section 21. of the said Specifications provide for Slaugmans trap on Platform as shown on plans 500 by Manly. Mfg. Co. & also provides that the basement stairs shall be closed around well hole, with a

door in Jailors office for access to said stairs, the Contractor has failed to Comply with said section.

6th The first section under head of Plumbing provides as follows. 'Furnish and set in each Cell room, and in bath room, one Motts No 335. G. prison closet, with full S trap, with flushing tank to each Closet, and one No 475. G, Slab and bowl, also bowl in Jailors office, all porcelain lined. the Contractor has failed to Comply fully with the above. in this that the prison Closets are only one half S. Trap and none of them are porcelain lined, and of the wash bowls two of them are porcelain lined the others are painted, and would further state that the Kitchen Sink mentioned in said Section is Cracked.

And in Connection with above would state that the Closets to the old cages also mentioned in this section, which were full S. Trap. and porcelain lined the Contractor Shipped away. and used in their stead one half S. Trap same as in other Cells

7 The Mob Cell mentioned in Section 54. has not been painted since it was set up as provided in section 55. which I regard as very essential.

8. The Contractor paid no attention to assorting the Brick so as to have them uniform in Color as provided for in the latter Clause of Section 13. of the Specifications

9. The Contractor has failed to point the walls of said building as provided in the latter Clause of Section 17. of Specifications and also failed to Clean down the walls, Stone Sills and Lintels and remove all defective brick.

10 The latter Clause of Section 34. of the Specifications provides that the pipes in basement are to be Covered with Magnesia Sectional Covering. this means as I understand it that the pipes are first Covered with paper prepared for that purpose, then Covered with Magnesia Sectional Covering wrapped with Canvas and then painted. The Contractor instead of following the above, used hair felt immediately upon the pipes. then wrapped it with Canvas and placed a Coat of asphaltum upon them. this is not as good as the Specifications require for the reason that the heat from the pipes will affect it more. My experience and that of others is that the Magnesia Sectional Covering is far Superior to any other.

11 As to the Heating apparatus I am unable at this time to make a report as it has not been properly tested and no report Can be made until this is done.

12th And finally I will state that the above is as Complete a report as your Superintendent Can make at the present time. the Contractor having locked up the building by reason of which your Superintendent has no means of access to the same but as soon as your Superintendent Can gain admission to examine finally and fully the said building together with a representative of said Company, he will make such additional report as may be necessary. Respectfully Submitted. J. P. Clyde Supt

which said claims it was the desire of the Board to protect for the owners thereof.

× And it appearing, still further, that it was the sense of the Board to effect a settlement of all matters as near as practicable, with said Manly Manufacturing Company:

Thereupon, was presented to the Board, a proposed agreement of settlement, in writing, in respect to the differences existing between the said Manly Manufacturing Company and the Board, as to the Construction of said Jail and Jailors residence; and, after a favorable expression of Opinion by legal Counsel, together with Certain Alterations noted, upon motion by the following vote of the board Viz; Ayes Mr L Dechert, E.H. Carpenter and J.H. Shipp. Nayes, none, the Chairman was instructed to sign said agreement as altered, on behalf of the Board, after the same shall first have been executed by the said Manly Manufacturing Company; and the said Manly Manufacturing Company, by its President, Robt. P. Manly, having during the Session of the Board, so executed said agreement, and the Chairman of the Board, having also in the presence of the Board, executed said agreement in Conformity herewith. It was ordered that said agreement be spread upon the minutes and a duplicate Copy furnished the said Manly Manufacturing Company, which said agreement is in the following words and figures, to-wit

This Agreement, made and entered into this 24th day of August, 1895; by and between the Manly Manufacturing Company, of Dalton, Ga., party of the first part; and the Board of Supervisors of Rockingham County, Virginia, for the benefit of said County, party of the second part. Witnesseth, that whereas heretofore, to-wit, on the 17th day of July, 1894, said party of the first part entered into an agreement with said party of the second part, to construct a Jail and Jailor's residence for said County, according to certain plans and specifications set forth in said agreement or contract, which said plans and specifications were afterwards in certain particulars altered or amended, as will more fully appear by reference to the Minutes of said Board of Supervisors and to the papers in connection therewith; and whereas, afterwards, to-wit, on the 31st day of July, 1895; the said Manly Manufacturing Company tendered in writing the said Jail and Jailor's residence as completed in accordance with said plans and specifications heretofore herein referred to; and whereas, also on the 5th day of August, 1895; the Superintendent on behalf of said County in the construction of said Jail and Jailor's residence, J.P. Hyde, submitted a written report to said Board of Supervisors, setting forth wherein the said Manly Manufacturing Company had failed to perform its contract for the construction of said Jail and Jailor's residence, which said report will be found as part of the Minutes of the said Board of Supervisors of date August 5, 1895; and whereas, upon personal inspection of said Jail and Jailor's residence this

day made by the members of said Board, it appears that by the corrections and alterations hereinafter recited the said Jail and Jailor's residence will be placed in a condition satisfactory to said Board and suitable for acceptance; and whereas, the said Manly Manufacturing Company agrees to perfect said work as hereinafter set forth, as well to indemnify the said Board of Supervisors in respect to the general carrying out of their agreements contained in said specifications as herein before referred to, and also the corrections and alterations last aforesaid; Now, therefore, in consideration of the premises, it is agreed, by and between the parties of the first and second part hereto, that the said Manly Manufacturing Company, of Dalton, Ga., will make the following alterations and additions to the Jail and Jailor's residence aforementioned, to-wit:

1st: To cover the roof of the kitchen in the addition to said building with tin roof, of good roofing tin, to be placed over concrete roof now on said addition

2nd: To cover the front porch with tongued and grooved heart pine floor over tin gutter at edge with down spout at corner, floor to be oiled;

3rd: To close the cellar stairway entrance, in Sheriff's Office on first floor, with tongued and grooved pine lumber, to be dust proof under and along side stairway, with proper frame and panel door to stairs same as to pantry;

4th: To plaster Bath Room, Hospital Room, and Hall between the same, on first floor, same as the cell rooms on that floor;

5th: To cut pistol holes in all cage-cell walls; and

6th: To clean dirty brick and window sills throughout and around the building.

And the said Manly Manufacturing Company agrees to test the sufficiency of the heating apparatus in said building (in the presence of a Majority of said Board of Supervisors), the said test to be performed at a time when the thermometer on the exterior of said building shall be at zero, at which time the interior temperature of said building shall be at 70° Fahrenheit.

And the said Manly Manufacturing Company further agrees to deposit with the Treasurer of the County of Rockingham County, Virginia, the sum of Seven Hundred and Fifty ($750.) Dollars, as a guarantee of its faithful performance of the foregoing contract and of the sufficiency and workmanlike construction of the entire building hereinbefore referred to as Jail and Jailor's residence, as required by specifications for same, the said Manly Manufacturing Company to be entitled to receive payment of said sum of Seven Hundred and Fifty ($750.) Dollars in the following manner, to-wit: Two Hundred and Fifty ($250.) Dollars thereof to be payable at the time of the satisfactory performance of the test of said heating apparatus aforementioned, One Hundred ($100.) Dollars on the first day of

January, 1896, and One Hundred ($100) on the first day of January of each succeeding year until the entire sum of Seven Hundred and Fifty ($750) Dollars shall be paid to said Manly Manufacturing Company, upon the following condition, to-wit: That the entire sum of money, being all or part of said sum of Seven Hundred and Fifty ($750.) Dollars, which may at any time remain in the hands of said Treasurer unpaid to said Manly Manufacturing Company, shall constitute a fund for the guarantee of the supplying of any omission by the said Manly Manufacturing Company in its performance of the work hereinbefore specifically set out and for the correction of any defect which may hereafter appear in any part of the Jail or Jailor's residence referred to herein, due to any failure to comply in any way with any portion of the specifications for the construction thereof, whether such defect shall be in respect to the construction of said building or in the character of the materials used therein or in the workmanlike execution of the construction thereof; notice of such defect, if any shall appear, to be given with all due diligence to the said Manly Manufacturing Company, through the ordinary course of mail, and if, within sixty (60) days from the time of mailing such notice, the said Manly Manufacturing Company shall not supply such omission or correct such defect, it is agreed that the Board of Supervisors of said County may supply such omission or correct such defect, and that the cost of the same shall be chargeable to so much of the fund as may at the time of the discovery of such defect or omission remain in the hands of the said Treasurer of Rockingham County as aforesaid.

And it is further agreed, by and between the parties hereto, that the party of the second part shall, upon the satisfactory performance by said party of the first part of the work called for by clauses of this agreement numbered from one to six (inclusive), or by leaving in the hands of the said Board of Supervisors sufficient funds to cover the cost of same, pay to said party of the first part the sum of $9742.68 (this amount being exclusive of settlement for excavation and rock work below the two foot line), being the amount to which it is entitled for the construction of said Jail and Jailor's residence under the several contracts in relation thereto heretofore entered into by the parties of this agreement, except whatever amount may hereafter be found due for excavation and rock work above referred to; viz, 1st, the sum of Seven Hundred and Fifty (750) Dollars (guarantee fund hereinbefore provided for), 2nd, an amount to save harmless the Board of Supervisors of said County by reason of certain attachments served thereon, amounting to $1082.67, and all unsettled accounts filed with this Board, amounting to $585.04, and, 3rd, the aggregate amount of the various orders heretofore given by said Manly Manufacturing Company or by its Agent, W. H. Hazard, or accounts approved by either thereof, and hitherto presented to said Board of Supervisors amounting to $4233.06; it being understood and agreed that should

any account or order not included in the said sum of $4233.06, approved as aforesaid, be hereafter presented to said Board of Supervisors, the same may be paid by said Board of Supervisors and charged to the Seven Hundred and Fifty (750) Dollars guarantee fund herein before provided for, if it should so elect.

The County Court of this County having certified to this Board an appropriation of $95.00 to pay land & damages in the matter of the Road Petition of Joseph M. Bowman and others. On motion by unanimous vote of the Board said order is approved and said sum appropriated payable out of the County Levy for the year 1895.

Messrs Fahrney Shipp & Diehert the Committee appointed at the last meeting to examine and make report to the board the necessity for building new Vaults for the Clerks Offices of this County or of building a New Court House with Fire proof Clerks Offices therein this day filed the report of Wm M. Bucher as to the Costs of said vaults made at the instance of the said Committee which is ordered to be spread upon the minutes and is as follows:-

Messrs M. L. Diehert Chas. Fahrney & others

Gentlemen.

In Compliance with your request I hereby submit as the probable Cost for fireproofing buildings as follows.

To take down & rebuild the side wall & end wall of Court House. So as to make it safe and secure will Cost about twenty eight hundred dollars ($2800.00) and might not stand without Cracking Some then.

To make the two Clerks Offices Fire proof by having double walls will decrease the size from 16 ft & 50 ft to 14 ft by 48 ft. and the height from 13 ft to 11 ft. and will Cost about four thousand five hundred and eighty dollars ($4580.00) It would not be fire proof without the double wall as there is so much wood work about the other part of the building.

To make vaults where Sheriffs & Treasurers Offices are will Cost about three thousand dollars ($3000.00 It would be necessary to repair the walls of the building in either of the above Cases so that to fire proof the Clerks offices would actually Cost ($7380.00), and to build the vaults as above, together with repairing the walls of building, would Costs $5800.00

To fire proof the old Clerks Office building like the Woodstock building will Cost about Forty two hundred dollars ($4200.00) This does not Contemplate double walls, and I fear the old walls are too light to bear the weight after Changing windows &c do not think this practicable

I do not regard the Woodstock Offices absolutely fire-proof as there is too much wood about the interior and the roof framing & sheathing is wood

Respectfully Submitted M. M. Bucher

And the Board being decidedly of the opinion that to make the repairs at the Cost or approximate Costs set-forth in said report would be a wanton waste and dissipation of the funds of the County

on motion by vote of the Board the further Consideration of the matter is Continued until a Day to be fixed before the board adjourns.

The Board having met for the purpose of Considering the question of Erecting new fire proof Vaults or the fire proofing the Clerks Offices. or the building of a New Court House for this County.
Whereupon J. H. Shipp. offered the following resolutions
Whereas. At the October Term 1892. of the Circuit Court of Rockingham County. the Judge of said Court issued a rule against the Board of Supervisors requiring them to Show Cause, if any they Could, why the vaults for the Keeping of the records of said County, in the Offices of the Clerk of the County and Circuit Courts should not be rendered fire proof and otherwise Safe and adequate for the preservation of such records.
And whereas. the said Judge of said Circuit Court, has, from time to time indulged the Board upon said rule, because of their being engaged in the Construction of a new County Jail building, but which has now been fully Completed:
And Whereas, at the October Term 1895. of said Circuit Court the Chairman of the Board was Called before said Judge, at the bar of the Court, and instructed that immediate action in response to the rule aforesaid would be expected and required;
And whereas, At a recent meeting of this Board plans and Specifications from Architects were invited, exhibiting an estimate of the Cost of so improving the existing vaults in said Clerks Offices as to make them adequate for the purposes for which they are intended, or of so altering the present Court House or the building known as "the Old Clerks Office," or of erecting an independent building adapted to this purpose alone;
And whereas it appears that a reliable estimate for such improvements, Alterations or erection Cannot be procured at a Cost of less than from $12000.00 to $15.000.00 and that in the event of the adoption of such plans as would involve such outlay no permanent and Adequate arrangement Can be effected;

And Whereas, After full discussion of the practicability and advisability of adopting such plan as is referred to in the last paragraph, and incurring an expense of the magnitude therein indicated, it is the Sense of the Board that such plan is neither feasible nor advisable;

Now Therefore, in view of the premises, On motion it is ordered that a Court House building, of modern design, and arrangement, adapted to the needs of the County and to Cost a Sum hereafter to be determined, shall be erected in the Center of the present Court House Square, bids for the Construction whereof shall be invited so soon as a plan and Specifications therefor Can be selected by the Board.

Whereupon E. M. Carpenter, offered the following as an amendment to the foregoing, Viz: That this Board proceed to the erection of Fire proof Clerk's Offices on the West side of the present Court House, at a Cost not to exceed the Sum of $5000.00

And thereupon Chas. E. Fahrney, offered as a Substitute to the foregoing resolution & Amendment thereto, the following Viz: "that all action in this matter be deferred for the period of One Year to be then taken up at the option of the Board"

Whereupon a recorded vote was taken first upon the Substitute which was as follows. For. Chas. E. Fahrney, against Messrs. Carpenter, Shiff, Moore and Dechert.

And then a recorded vote was taken upon the Amendment and resulted as follows. For. Messrs Carpenter & Moore. against Messrs. Shiff, Fahrney and Dechert.

And thereupon a recorded vote was taken upon the resolutions and resulted as follows. For. Messrs. Shiff, Fahrney & Dechert against Messrs Carpenter & Moore. whereupon Mr. Carpenter moved that the vote be made unanimous. upon which motion Messrs Carpenter Shiff Fahrney and Dechert voted in the affirmative and Mr. Moore in the negative

And thereupon on motion of Mr. Moore, the words "Center of the" in said resolutions were by unanimous vote of the Board Stricken therefrom.

On motion the Board adjourned to meet on Wednesday next.

The following resolution was offered Viz:-

It appearing to the Board of Supervisors that the erection of a New Court House for the County of Rockingham is very necessary, and in order to erect and complete the same, it will be necessary to Contract a Loan on the Credit of the County [illegible] Therefore be it resolved that this board Contract a loan for said purpose for an amount not exceeding the Sum of Forty five thousand Dollars Subject to the Approval and orders of the Judges of the County and Circuit Courts of Rockingham County in accordance with the provisions of Chapter 300, Section one, of Acts of the General Assembly of Virginia, of 1893-4.

Upon a vote taken upon the foregoing resolution the same was lost Messrs Shipp & Dechert voting in the affirmative, and Messrs Moore Carpenter & Fahrney in the negative.

Whereupon a like resolution was offered making the amount of said loan not to exceed the Sum of thirty thousand dollars, to which an amendment was offered to make it Forty thousand dollars, and the vote of the board was taken upon the amendment, which was lost by the same vote as above, and the resolution for the thirty thousand dollars loan was Carried, each member of the of Board voting in the affirmative.

On motion, and after due Consideration by the board, the resolution above named making the amount of said loan thirty thousand dollars, was rescinded by the following Vote of the board Viz Yeas Messrs Shipp Carpenter, Fahrney & Dechert, Nays D. S. Moore.

(1)

It appearing to the Board of Supervisors, that the Erection of a New Court House for the County of Rockingham is very necessary, and in order to erect and Complete the same it will be necessary to Contract a Loan on the Credit of the County. Therefore on motion, by the following recorded vote of the Board. Viz- Yeas Messrs Shiff. Carpenter, Fahrney & Dechert. Nays Mr. D. H. Section one, of the Acts of the General Assembly of Virginia, of 1893&4. And the Clerk of this Board is ordered to Certify this order to the Judge of the County Court of this County for his approval or disapproval.

(2)

Whereas by a recent order of this Board it was determined to build a new Court House for this County, and whereas the Construction of such new Court House will necessitate the tearing down of the present one, and the acquisition of another place for holding the terms of the County and Circuit Courts of this County, and for Keeping the records of said County during the Construction of such new building-

Therefore on motion by unanimous vote of the Board, it is ordered that the Chairman of the Board for and on behalf of the Board unite with the Judge of the County Court of this County in an application to the proper federal authorities, for the use of the United States Court room at Harrisonburg Va. for the holding of the terms of the said County and Circuit Courts of this County therein, until the Completion of the said new building, and for the use of others portions of the United States Building at Harrisonburg Va. for Keeping the records of said County during the time aforesaid.

Virginia. At a Meeting of the Board of Supervisors of Rockingham County held at the Clerk's Office of the County Court of Rockingham County, on Monday. September 7th 1896.

Present Wilmer L. Dechert Chairman Central District
J. H. Shiff Stonewall District, E. H. Carpenter Ashby District
David H. Move Linville District and Charles E. Fahrney Plains District.

The minutes of the last meeting were read, And it being the opinion of some of the members of the Board that the Caption of the order relating to the changing of the Exterior portion of the New Court House Building from pressed brick & terra Cotta to Indiana Limestone, does not fully set-

forth the action of the Board pertaining to said matter. On motion It is ordered that said portion of the Minutes be and the same is hereby changed to read as follows.

The Board having met pursuant to adjournment for the purpose of entering into a written Contract with M. E. Speir for the Changing of the Exterior portion of the New Court House Building from Pressed Brick and Terra Cotta to Indiana Limestone as set forth in the order of August 29th 1896. And Certain members of the Board expressed a desire to change their vote and rescind said order of August 29. 1896. But being advised that to do so would by reason of their action of that date in making said Change and accepting the bid of M. E. Speir, who being notified of the action of the Board proceeded at once to Countermand his orders for Pressed Brick and Terra Cotta Materials and entered into Contract for the Indiana Limestone, as set forth in his said bid, render the County liable for any damage the said M. E. Speir might sustain by reason of the Changing of his orders under the Action of the board as aforesaid, of August 29th 1896. declined to change their vote.

Application having been made to the Board for the Adoption as to Stonewall Magisterial District in this County of the Act of the General Assembly of Virginia, entitled an Act relating to fences and for the protection of Crops passed January 26th 1866 and the amendments thereto, and due notice having been given according to law. that the matter would be Considered at this meeting of the Board.

And thereupon J. H. Shipp Supervisor for said Stonewall District offered the following resolution. Viz:-

That the Act of the General Assembly of Virginia entitled An act relating to fences and for the protection of Crops passed January 26. 1866 and especially the amendment thereto passed February 18. 1896. be adopted as to ~~the lines of~~ all lands lying along the Public Roads in said Stonewall District between a line running parallel with the foot of the Blue Ridge on the East side of said District and a line running parallel with the foot of the Massanutten Mountain on the West side of said District in so far as it relates to Hogs running at large in said section of said District. Whereupon Mr. Moore offered an amendment that instead of the foot of the said Mountains being the line to make it one half mile of the foot of said Mountains, and a vote being taken upon the amendment it was lost by a vote of four to one, whereupon a vote was taken upon the original resolution and the same was carried by Vote of four to one Mr. Moore voting in the negative and the Clerk of this Board is ordered to have published in the Spirit of the Valley a Copy of this order and so much of the act in relation to this matter as may be required under the law

On motion by Unanimous Vote of the Board. Wm M. Bircher Superintendent of the New Court House Building. is ordered to have the Brick from the old Court House Assorted and turn over to M. E. Speir the Contractor those that he deems fit to be used in the new building, and the rest to dispose of to the best advantage

It appearing to the Board from the Statement of E. H. Carpenter Supervisor for

Kelby District. that it will require the sum of $62.15 to pay in full the Claims for Support of the Poor in said District for the year ending June 30th 1896. On motion by Unanimous vote of the Board. the Clerk of this Board is ordered to issue a warrant to G. S. Heatwole. The following resolution was offered by Mr. Moore Viz:-
Whereas in the erection of the Court House now being built in the town of Harrisonburg Rockingham County Va. The Specifications have not been complied with. The Specifications requiring the rock to be not less in thickness than four inches. And whereas there have been rock used that are wedge shape thereby making the wall insecure and not according to the said Specifications Therefore be it resolved by the board of Supervisors of Rockingham County Va that the Contractors be required to take out all rock, not of the required thickness of 4 inches and to use not rock under the required thickness, as the Specifications direct. Whereupon Mr Dechert moved that the said resolution be laid upon the table which was Carried Messrs Fahrney. Shipp and Dechert Voting in the affirmative and Mr. Moore in the negative

To The Board Of Supervisors for Rockingham County.

Gentlemen:

On the 1st. day of December 1902, the Road Board for Central District advertised for bids for the construction of a certain road in said District, known as the Harman-Layman Road, and among the conditions set forth in the said advertisement was one that " "the timber and fencing along the roadbed was to be removed by the land owners if they desire it and will take the standing trees out by the roots".

The undersigned bid for the said work with the understanding that the lands owners were to remove the timber by the roots, and that if they did not that the timber, which was of considerable value, should belong to the bidder as a part of the consideration of the contract for the building of the road. With this understanding petitioner made his bid at the price of $350.00 for the work complete, and the bid was accepted, by the said Board, and bond executed as was required conditioned for the faithful completion of the work &c. However when the contract itself was drawn this feature as to the removal of the timber was inadvertently omitted, and thereafter the Board permitted the land owners to cut and remove the timber which was of considerable value, and the owners in removing the same did not remove the stumps as required by the advertisement, but cut down the the larger timber leaving the stumps and smaller timber to be removed by petitioner. That by reason of the facts stated petitioner has lost a considerable amount, the value of the timber taken from the grounds to which petitioner was entitled and the extra work in permitting which resulted from the acts of Road Board, the owners of the land to remove the timber and not remove the stumps and smaller growth, being at the least $40.00 to $50.00, which petitioner asks the Board to allow them.

Respectfully,

William Liskey

And thereupon Mr Moore offered the following resolution
"That No more rock be laid in the said building until these matters are settled."
And Mr. Dechert moved that the said resolution be laid upon the table, which was Carried by the same vote as upon the former

The Question as to the Kind of Blastening to be used in the New Court House building which was Continued from the last meeting of the board was again brought up for Consideration, And on motion by vote of the board it was determined that the same Should be of Lime and Sand as set forth in addenda to Specifications and to be without additional Cost Not annexed. Messrs. Moore Shiph & Dechert voting in the affirmative and Mr. Fahrney in negative, upon motion of Mr. Fahrney the vote was made unanimous.

On motion by Vote of the Board, the Treasurer of this County is ordered to pay the Semi-annual interest on the Bonds of the County due as of January 1st 1897. out of any County funds in his hands at the date of presentation of the Coupons therefor.

E. Speir the Contractor for said Building, and whether or no the said Contractor has fully Complied with his Contracts and the Plans and Specifications for said Building, this day filed his report, which on motion by unanimous vote of Board is received. and ordered to be Spread upon the minutes. and is as follows

Staunton, Va., August 13. 1897.

To the Board of Supervisors of Rockingham County, Va.,
Harrisonburg, Va.

Gentlemen:-

By action of your honorable board at its Sitting of August 6th. 1897. I was appointed to inspect the work and materials furnished by Mr. M. E. Speir, under his Contract for erecting and finishing the new County Court House at Harrisonburg, Va., to report to you whether or not the said work and materials are in accordance with the true intent and meaning of the drawings and Specifications prepared for the same by T. J. Collins and Son Architects.

I have Carefully and thoroughly inspected all of the work and materials exposed to view in the building as it now stands; I also have Considerable Knowledge of the hidden work and materials, gained at times when I visited the building during the Course of its erection. Therefore I am Confident that this, my report, will embrace every essential point necessary to show the true facts in regard to nearly every detail of the entire building.

I find that all the work and materials furnished by Mr. Speir on the building are authorized by the following actions of the board. as recorded as the minutes. Viz:-

June 17. 1896. Original Contract for the building as per drawing and Specifications, except that the word Superintendent should be substituted for the word architect wherever it occurred in the Specifications.

The board authorized a building Committee to be Composed of three members of the Board, who had power to Authorize Changes in the building subject to the approval of the board.

August 29. 1896. Contract made Substituting Indiana Oolithic Lime Stone Ashlar and trimmings in place of pressed brick and terra Cotta facings and trimmings, as per Supplemental drawings prepared for

the same by T. J. Collins and Son. Architects. Sept. 16th. 18
Sept. 16th 1896. Steel girders and strengthening piers authorized in the main lobby.
Also Steel beams. brick flow arches, and Concrete authorized for the three porch flows and for Corridor flow between fire proof rooms
Jan. 4th 1897. Authorizing Mr. Bucher, Superintendent, to have the stone work of the building done to the best of his judgment. thereby securing in Construction the best walls possible.
Feby. 1st 1897. Changes in tower and Stairway Construction authorized, as per supplemental drawings by the Architects.
May 29th. 1897. Common plaster according to supplement or Alternate Specifications substituted for Adamant plaster.
Change in rain water Conductors and drains authorized.
April 13. 1897. Authorized the Construction of fly gallery.
June 2nd. 1897. Authorized two false girders in Court room and plaster Cornice for same; Also, raised floor and balustrade forming box seats at either side of stage in Auditorium; Also four Copper dormers on tower roof. by supplemental drawings made by the Architects; Also tiling floors of Lobby. Corridors. Stair vestibule. and porches. and wainscot tiling for walls of lobby vestibule and Corridors.
June 2. 1897. Electric light fixtures authorized; Also plaster Cove in Auditorium; Also to Construct panel work under stage and form proscenium Arch, Also to make doorways and doors from Auditorium to stage: Also four urns at Corners of towers. to be made of stone in place of Copper; build fire rooms on stage and build the two balustrades in Auditorium.

Under the head of excavation in the Specifications. I find that the general level of the Cellar flow is about 3" lower than drawings Call for. being 7' 6" instead of 7' 3"; this is better than what is called for, and Cost more to do the extra excavation. I also find that the back filling Called for (see page 6) has not been done as specified. but has been done with earth and Coarse pieces of stone. If done according to Specifications it would require about one hundred Cubic yards of broken stone and the value (above the way it is done) would be about $50. on
Under the Head of Concrete, I Could see nothing upon final inspection, but from observations made during three visits I made to the building while that work was being done. I believe the work and materials were in accordance with the drawings and Specifications,
Under the head of Concrete Filling (see page) the Specifications Call for the exterior face of all main walls from Concrete footings to grade line, to be plastered with the Cumberland Cement mortar, equal parts Cement and clean Sharp Sand. troweled hard and Smooth. This work was not done. The value is about $60.00, being about 600 Supl. Yds. at 10¢ other items under this head. So far as I Could see, are in accordance with the drawings and Specifications.
Under the head of Stone work; I find that the work is well done

with good mortar and large stone, well bonded and well built. in accordance with the drawings and Specifications.

Under the head of Coursed Ashler, I find that the work and materials are fully up to requirements of the drawings and Specifications, except that the Quarry faced work exceeds the 2" projections allowed in some Cases, and one or two Stone show Seam faces. These deviations from the Specifications do not injure the looks of the building in the least, and Cannot be Corrected, and such deviations are usually allowed to pass without notice.

Steps, etc. Under this head I find the work very well done and I think in full accordance with the drawings and Specifications.

Cut Stone, Above Basement.

Under this head I find that the work and materials appears to be fully up to the drawings and Specifications in every particular

Substitute Stone Work. Put in the Building in Place of Terra Cotta:

Under this head I find upon inspection that the work throughout appears to be up to the full requirements of the drawings and Specifications.

It has been Charged that some pieces of the Ashler are thinner than the Specifications Call for. Viz:, "at least four inches". My personal observations of Job on this inspection Cannot verify or Contradict this Charge. If the persons making the Charge had taken the precaution to locate the position of the thin Stone on the building, So as to find them, it would be easy to prove their Charge, but it will be impossible to locate them now. My attention was Called to this subject at the Commencement of this branch of the work, and I, at each subsequent visit during its progress, took particular notice of the materials and work in an unofficial manner, and never found anything to prove the Charge from such work and materials as were in sight at the times of such visits. The Action of the Board of Supervisors at their Sitting of January 4th. 1897. (quoted above) when this question was brought up by Mr. Moore, Seems to have been intended to give the Superintendent full Control of the question, regardless of the Specifications, and appears to have Supplemented his powers So as to give him absolute Control, So far as the board was Concerned, to use any thickness of Stone which in his judgment was suitable for the position in which it was to be placed, regardless of the Specifications.

My attention has also been called to Several Stone that have Cracked or broken; three in the South front, and one in the East front, The reason for it, in my opinion, is this: All buildings, no matter how much Care is taken with them, or how Costly their Construction, are liable to Settlement or Shrinkage during Construction, and if one part of a Structure is higher or Causes more weight on any portion of the bearings than on another, there will be a Strain at the point of Difference which will be great or Small according to the local Conditions. At the South end of the building the Concrete foundations went Several feet deeper than in any other portions of the buildings and the weight Supported, including the tower, is Considerably greater than at any other part

of the building. Moreover, the work of the South end of the building was the last to have the Concrete base put in place; then the work on it was pushed forward in a more hurried manner than on any other portion of the building, in order to catch up, all of which might have caused a slight settlement at the South end, which has gone as far as it ever will go. If the above theory is Correct, no matter how thick the Stone were, or no matter how slight the movement, if the Strain was Sufficient the Stone would break. In fact, I Know of very large granite block breaking in very expensive buildings from very slight movements, which Could not be guarded against by any human foresight.

If the Cracks or breaks in the Stone are Caused by the settlement, after all the precautions that were taken to prevent such a thing, and the work has been done by the Contractor Strictly in accordance with the terms of his Contract, he Cannot be held responsible for them.

But there is another Cause which might produce the same result and that is, if the Stone in being worked was weakened in any way, it would show a Crack after a time, or if it was set improperly, or bedded in an improper manner, the effect would be the same, and the Contractor would be responsible and would have to make good the defect under the Clause in General Conditions (see page 2): "Each Contractor, at his own expense, shall make good any defects, Settlements, Shrinkage, or other faults arising from improper or defective work or materials, which may appear before the Completion of the building." My reason for rejecting the latter theory is that the Cracks would not appear at approximately only one place in the building, and that place where there is reason to believe other Causes produced the effect.

Before leaving the Subject of Stone Work, I will say that for general appearance and finish, the Stone work is a very superior job and a Credit to all Concerned.

Brick Work.

Under this head, I find that the work is mostly Covered up, but from the work in view, and from what I saw during its Construction, I believe the work and materials generally are in accordance with the drawing and Specifications. It appears that the Soffits of Arches in the Cellar have not been face pointed, as required by Clause (see page 13) "All other Common brick work exposed to view, to be trowel pointed" I suppose $15.00 would pay for this work.

I also notice that the brick work of interior flue walls in the rooms on either side of the Stairway in the second Story has partly been left out or dropped off at about half the height of the Story. I suppose there was authority for it, although there is none on record. The value of the brickwork and plastering omitted is approximately $50.00

Mortar

Cleaning and Pointing,

Cutting, Building, etc

All the work and materials under these heads. So far as I have

knowledge, and in accordance with the drawings and Specifications.

Steel and Iron Work.

Under this head the work and materials are to the best of my judgment in strict accordance with the drawings and Specifications. The Iron brackets under galleries in Selects Offices are in the building, but not in place. It appears that they interfered with the metal furniture and for that reason were left off but there is no record of the Change being made.

Under the head of Carpenter's Work, I find that the Specifications Call for (page 17) "One row of X bridging to each three feet of Span, the Cross bridging to be 3 x 1-1/2"; well nailed at top and bottom ends". These rows of bridging, were exposed to view, are more than three feet apart, The Value of the rows omitted would be approximately $32.00.

I find that the Sub-floor on first floor shows that the heading joints were Cut anywhere, and not on the bearing joists; although the Specifications do not say particularly that the heading Joints (shall) be made on the bearing joists,

I Consider it a violation of Clause (page 1) "All work and materials to be the best of their respective Kinds." I also noted that two or three bad places in the Sub-flooring had not been Cut out. This Sub-flooring has no defects that will injure its strength or durability, - and I do not see that the Contractor gained anything by doing the work in the manner it is done.

Roofs. Partitions. Flooring. Windows Interior Finish. Doors Trimmings Water closets, Sundries. Stairs, all seem to be excellently well done and of good materials in strict accordance with the drawings and Specifications and in many respects better than what is Called for

Transom Bars are not in accordance with detail drawings; but has left off.; value about 50¢.

Woodensacks Transom lifts not put on transom Sash; Value about $3.00.

Slating.

All the work and materials under this head have been it seems furnished in full accordance with the drawings and Specifications.

Copper and Tin Work.

All the work and materials furnished under this head, including the changes authorized in rain Conductors, gutters, and dormers, are in accordance with the drawings and Specifications.

Plaster,

This is in accordance with the drawings and Specifications and the extra work is very well done, but the patching has been done by a Careless person, and is very unsightly and many small broken places have not been attended to at all.

Painting and Glazing.

All the materials and work furnished under this head are in full accordance with the drawings and Specifications except that work in the Auditorium is painted instead of being finished in natural wood as Specified; I suppose this Change was authorized

although not recorded.
Electric Lighting.
Is a Complete Job in every respect and is more perfect in every respect than the drawings and Specifications Call for.
Plumbing.
So far as I Can See is in full accordance with the drawings and Specifications as modified by Subsequent Changes. The water Closets are not of the pattern Specified but were recommended by me as better than those Specified
Tiling and Vault Doors.
Are I think in full accord with the full intent and meaning of the drawings and Specifications, as modified by Subsequent Changes and are excellent pieces of work of their Kind.
All the work and materials furnished under the various Changes ordered are in Keeping with the Spirit of the Specifications, except the five rooms on the Stage which are of an inferior quality of materials, but good enough for the purpose for which they are intended, and I Suppose that they are in accord with the agreement made about them.
In the mezzanine Story a change from the drawings and Specifications has been made by which a room over the Judge's room has been left out, and another room changed. I Suppose it was done by Authority, but I found no record of it. The ladders from the gallery floor Second Story, to Clock Tower Call for 2 x 8" Yellow pine, but they are made of 3 x 6" poplar. They are just as good as what is called for in every respect.
Finally: I Can Safely say without fear of Successful Contradiction that taking the building generally, it is a very Superior piece of Construction and that it shows in every branch a desire on the part of the various Craftsman to make their work as perfect as possible. The result is that the building taken as a whole is very near the ideal Conception of what it should be, and is a building of which to be proud

Very Respectfully, your obedient Servant...
T. J. Collins.

Mr. Dechert moved that the the New Court House Building of this County be accepted by the Board of the Contractor. W. E. Miller are appointed a Committee with instructions to have prepared plans and Specifications for any additional building necessary at the Almshouse farm for the proper Care and Comfort of the inmates therein, and submit same to this board at its next meeting

Mr. H. L. Dechert. Offered the following resolution Viz:-

Whereas, A New County Court House and Jail have been recently erected in the town of Harrisonburg, and water introduced therein from the Water mains of said Town, and in said buildings, basins and Water Closets have been provided, at Considerable expense, but their use is impracticable because of the lack of Sewerage facilities; except that at the Jail the same are in use in Connection with a Cess-pool, whose Cleaning is a Source of Constant expense to the County.

And Whereas, it would be Conducive both to the greater Convenience of said buildings and to the health of the Occupants thereof if said basins and Closets Could be used in Connection with a proper Sewer-System, especially in view of the large number of Citizens of the County whose business requires their attendance as Suitors, Witnesses and Jurors at the Court held in said Court House, and who are Constantly Called upon to transact business at the Various public Offices in said buildings; and the Board of Supervisors being persuaded, therefore, that it is materially to the benefit of the County and its Citizens at Large that such a Sewer-System as hereinbefore mentioned should be Constructed in said town of Harrisonburg:

Now, Therefore, Be it Resolved, that a proposal be Submitted to the Common Council of the Town of Harrisonburg that if said Town will Construct within its limits a System of Sewers So as to furnish Sufficient Sewerage facilities for said Court House and Jail, the County of Rockingham agrees to pay to said Town of Harrisonburg the Sum of $400.00 Annually, for the period of Ten Years from the time of the Completion and use of Such Sewers for the Sewerage from said buildings in Consideration of the Special benefits which will accrue to said County from such System, the said County, however, to be entitled to the free use of Such Sewers for the Sewerage from its said buildings and to the free use of the water from the said water mains, in said buildings and the grounds Connected therewith in Such reasonable quantity and in Such manner as may be necessary or deemed by said County for the said period of Ten Years.

And be it further resolved, that upon the acceptance of this proposition by the said Common Council of said Town, the same shall have the force and effect of a Contract, provided work be Commenced upon said System of Sewer within One year from this date

It is to be understood that the above mentioned Sum of $400.00 per annum shall be paid by the said County in two equal, Semi-annual payments of $200.00 each upon the 1st day of January and the 1st day of July, respectively of each year. Provided, however that in the event the said County is debarred

for any reason from the use of said sewerage that the payment of said amount payable by said County shall cease during the time the said sewerage is inoperative.
It is also provided that the County at its option may at the expiration of this agreement renew the same for such period as the County may elect not exceeding Twenty years at a price to be agreed upon not to exceed the said sum of $400 per annum
It is further provided that the Town is to be liable for any and all damages that may be legally recoverable by any individual by reason of the use of said Sewer by the County of Rockingham.
And the Board having maturely Considered the Same. On motion by the following vote of the Board Viz:- Yeas. Messrs. Lam. Carpenter Dechert and Miller Nays. Mr. Moore the same was adopted and the Clerk of the Board is ordered to Certify a Copy thereof to the Common Council of said Town for its action.

In the matter of the above account of Wm M. Bucher Son for Plans & Specifications. Mr. Harrison Commonwealths Attorney for this County, in the presence of the Board and Mr. R. S. Bucher member of said firm, gave notice that he appealed from the action of the Board in allowing said account, and the payment of the said account is suspended until the said appeal is disposed of

The Board's attention having been called to the fact that the Ladies of the Assembly Hall Committee have introduced Scenery, etc., into the Hall at a cost more than double the amount named in the resolution of the Board entered at meeting of March 18. 1898, when the use of the Hall for the sole purpose of assisting in paying for said Scenery, etc., and bill for such aggregate cost amounting to exceeding $1.100 having been exhibited to the Board, and the Board being of the opinion that the County's interests were best subserved by placing a full equipment of Scenery in the Hall, which seems to have been done. On motion by Vote of the Board

It is ordered that Nineteen (19) additional nights be conceded said Committee when the Hall be at its disposal free from Cost; and that the five nights referred to in resolution of March 18 1898. for which the Committee was to pay $5.00 each, be Commuted to five additional free nights, making twenty-three free nights provided for by this order. Provided always that when sufficient funds have been raised with which to pay for the Scenery. No further free use of the Hall shall be allowed. It is also provided that the use of the Hall for the nights above set forth shall not extend beyond May 1. 1900

This day came Charles A. Sprinkel and moved the Board to allow him out of the fund due the Manly Manufacturing Company the sum of $12.57 being the amount of the interest claimed by him on the bond of Ed. Terry executed to him for the sum of $136.25 paid by the County of Rockingham by an order of the Manly Mfg Company on the 24th day of June 1896 On Motion by Vote of the Board, the board declined to pay said amount until a final settlement may be had between said County and the said Manly Manufacturing Company, and then only in the event that the said County shall be due said Company said amount, And leave is granted the said C. A. Sprinkel when consented to by S. V. Strayer Attorney for the Manly Mfg Co. on paying the said bond from the papers by leaving an attested copy thereof, the said bond to be credited by the said sum of $136.25 paid by the County of date June 24. 1896.

County $5991.00 Roads & Bridges $9974.52 Parish $3770.00 Depositum $3000.00 = $22735.52

On motion by Vote of the Board. the foregoing allowances and estimate of expenses were made for the year ending June 30 1900. and the Clerk of this Board is ordered to issue warrants upon the Treasurer of this County for the payment of the same to the parties entitled thereto. out of the County levy for the year 1899 and to meet the above sum of $22735.52

On motion by Unanimous Vote of the Board. the Board doth lay a levy of Twenty three (23) Cents, on each One hundred ($100.00) dollars of the assessed value of all Real Estate and Personal Property in the County of Rockingham. and upon all the Real Estate, Depots Depot grounds and tracks. of all Railroad passing through said County except those exempt by law. And upon the Real Estate and Personal Property of all Telegraph lines passing through said County as provided in the Acts of the General Assembly of Virginia except in the town of Harrisonburg. which is exempt from said levy in so far as the same relates to Roads Bridges and Parish funds. and doth also levy fifty (50) Cents Poll tax on each Tithable in the County of Rockingham. And the Treasurer of this County is ordered to Collect the same. And on motion by Vote of the Board the proportionate part of the above levy of (23) to be paid by the Town of Harrisonburg was fixed at a sum not to exceed 8¢ on each $100.00 of the Real and Personal Property within the said town of Harrisonburg

In the matter of the levy to pay the interest on the Funded Indebtedness of the County and funds a Sinking fund. Messrs Deaver & Miller offered the following. It appearing to the Board that the present fixed interest Charge on the funded indebtedness of the County amounts to $9.900.00 annually. Created as follows.

$15.000	of Jail Bonds @ 6%	$900.00
95000.	of Railroad Bonds @ 5%	4750.00
85000.	of Court House Bonds @ 5%	4250.00
	Total Interest account	$9,900

And the Funded Indebtedness itself amounts to $195.000.00 Created as follows

Issue of 1874 (Jail bonds). due Sept 10. 1899.	$15,000.00	
Issue of 1891. (Railroad bonds) due June 30. 1901	95.000.00	
Issue of 1896. (Court House bonds.) due Jul 1. 1916.	40.000.00	
Issue of 1897 (Court House bonds) due Jan 1. 1917	45000.00	195000.00

And the Board being persuaded that a major portion of the tax-payers of the County favor the adoption of a plan whereby this bonded indebtedness can gradually be extinguished, provided a slight increase only of the present tax rate is necessary. On motion by unanimous vote of the Board. It is ordered that instead of the usual interest levy of 10 Cents which has heretofore been laid, A levy of fifteen (15) Cents be and the same is hereby laid for the year 1899. upon each $100.00 of the assessed Value of all real estate and personal property in the County of Rockingham, and upon all real estate. tracks. Depots. depot grounds etc,, of all railroads passing through this County (except those exempt by law), and upon the real estate and personal property of all telegraph lines passing through the said County, as provided for under Acts of the General Assembly of Virginia, to be known as Interest, Bond & Sinking Fund levy. which if continued for fifteen years, will dispose of the Jail and Railroad bonds in the following manner

	Interest	Bonds.	Sinking Fund
Levy of 1899	$9.900.00	$ 3.000.00	$ 1.00.00

The apply Sinking Fund..		7000.00	7000.00
Totals of R.R. bonds and S.F.		$95000.00	50.00

This will provide for the Jail and Railroad bonds and $40.000.00 of the Court House bonds will be due July 1, 1916, while the remaining $45.000 of Court House bonds will be due Jan 1. 1917. except that the County has the right of redemption anytime within ten years thereafter,

And believing this plan to be feasible and desirable and in the best interest of the County as a whole, the Board recommends to its successors in office a continuance of the 15 Cent levy provided for herein for the full period necessary. Viz:- to and including the levy for the year 1913. when the bonded debt will have been provided for, except as to $85.000.00 of Court House bonds.

On motion by Unanimous Vote of the Board. the Board doth lay a levy of Ten (10) Cents, on each One hundred dollars ($100.00) of the assessed

Value of all Real Estate and personal property in the County of Rockingham, and upon all the Real Estate, Tracks, Depots, Depot grounds, etc., of all Railroads passing through said County (except those exempt by law) and upon all the Real Estate and personal property of all Telegraph lines passing through said County as provided for under Act of the General assembly of Virginia (except in the Town of Harrisonburg) for County School purposes for the year ending June 30. 1900. and the Treasurer of this County is ordered to Collect the same.

On motion by Unanimous Vote of the Board. the Board doth lay a levy of Ten (10) Cents on each One hundred ($100.00) dollars of the assessed Value of all Real Estate and Personal Property in the five Magisterial Districts of Rockingham County (hereinafter named) and upon all the Real Estate Tracks, Depots Depot grounds of all Railroads passing through said Districts (except those exempt by law) and upon all Real Estate and personal property of all Telegraph lines passing through said Districts as provided for under acts of the General Assembly of Virginia Viz- Stonewall, Ashby, Central Linville and Plains Districts, except in the Town of Harrisonburg in said Central District, for District School purposes. And the Treasurer of this County is ordered to Collect the same.

The following allowances to Viewers Surveyors &c made by the County Court of this County and Certified to this Board, were presented, examined, and appearing to be made in Conformity with the law. On motion by Unanimous vote of the Board the same are allowed, and the Clerk of this Board is ordered to issue warrants upon the Treasurer of this County for the payment of the same to the parties entitled thereto out of the County levy for the year 1899

THE NEW ROAD LAW

Enacted by the Last Session of the Legislature.

Special Act in Reference to the Public Roads of Rockingham County.

1. Be it enacted by the general assembly of Virginia. That an act entitled an act providing for the making, changing and working of roads in the county of Rockingham, approved March second, eighteen hundred and eighty-eight, as amended by an act of the general assembly approved March fifth, eighteen hundred and ninety as further amended by an act of the general assembly approved February twenty-fifth, eighteen hundred and ninety-two, as further amended by an act of the general assembly approved March second, eighteen hundred and ninety-four, and as further amended by an act of the general assembly approved February twenty-sixth, eighteen hundred and ninety-six, be amended and reenacted so as to read as follows:

1. For each magisterial district in the county of Rockingham there is hereby created and established a board consisting of the supervisor, a commissioner of roads and one justice of the peace, which board shall have exclusive control of all roads and bridges within its limits, except as hereinafter provided, and and all taxes levied for road purposes and for building and reparing bridges, shall be expended within each magisterial district—that is to say, that the taxes levied in each magisterial district shall be expended in the district in which it is so levied.

2. The justice of the peace constituting the member of said board shall be chosen and resignated by the three justices of the peace elected and commissioned in each magisterial district. He shall be clerk of said board. The designation of the justice who is to serve in said board shall be in writing, and shall be preserved and recorded by the board of commissioners of roads. The commissioners of roads provided for in this act shall be elected by the qualified voters in each magisterial district at the regular November election, when all the county and district officers are elected, and shall hold his office for a term of four years, or until his successor is qualified.

3. The board hereby provided for shall be a body corporate, and shall be known and designated as the board of commissioners of roads for ——— magisterial district of Rockingham county, and as such shall have the right to contract, and be contracted with, sue and be sued.

4. The commissioner of roads provided for in this act shall reside in the district for which he is elected, and his term of office shall

begin on the first day of January next succeeding his election; he shall qualify at the time and in the manner provided by law for the qualification of magisterial district officers, and shall at the time of his qualification or before he enters upon the discharge of his duties give bond for the faithful performance of his duties, with security in the sum of one thousand dollars.

5. The commissioner of roads shall have charge of all the roads and bridges in his magisterial district. His duties shall be to see that all the roads in his district are of proper width, and in all cases where they are not, to notify the persons trespassing by written notice, and if the opstructions are not removed after reasonable notice. not to exceed ninety days, he shall proceed to remove the fence or other obstructions, and may recover the expense with costs from the trespasser upon judgment of a justice of the peace: provided, however, that where there is a road of less than thirty feet now in use, and a commissioner of roads is satisfied that no inconvenience will result to the public on account of the width of said road, he may continue the same. He shall examine all the roads in his district two or more times in each year, as directed by the road board, to see that all roads and bridges are kept in good repair, as hereinafter provided for. He shall have charge of all tools or machinery belonging to the district or county while in use in his district. When such tools and machinery are not being used or operated he shall provide such means as shall be reasonably necessary to protect such machinery and tools from injury and damage, and any expenses incurred by the commissioner in so doing shall be paid out of the district fund on warrant of the board of commissioners of roads. His compensation shall be two dollars per day for each day he may be actually engaged in the discharge of his duties under the provisions of this act, to be paid by the county treasurer in the manner hereinafter prescribed.

6. Every petition to alter or change a public road must first be presented to the commissioner of roads in the district in which the road is located, who shall endorse thereon his approval or disapproval of same, and his reasons therefor, which petition and the commissioner's report shall be laid before the board of supervisors at it next regular meeting, and the board may appoint three discreet freeholders to view the ground of any proposed change. The county or other surveyor shall accompany the viewers, and if necessary survey and map the route. The whole number of viewers must view, but a majority may decide for or against the proposed change. They shall submit estimates of the cost of any change recommended or proposed. They may report for a modification of the proposed route, and submit estimates therefor.

7. Notice of the time and place, when and where the viewers will meet shall be given by publication in a newspaper at least five times before time of meeting. The viewers before they proceed to discharge their duties shall be severally sworn by the commissioner of roads, or

some other person authorized to administer oaths, to perform their duties impartially to the best of their judgment. If they decide there is public necessity for a change, they shall lay out the same, having respect for the shortest distance and the best location. They shall assess the damage to the land through which the road passes, taking into consideration the advantage to be derived from the road passing through said land, and shall report in writing to the board of supervisors at its next regular meeting. If any yard, garden or orchard, or any part thereof shall be taken, it shall be so stated in said report.

8. The board of supervisors shall examine the report of the viewers, and if it appears from said report that the proposed change will not probably be to the public interest, the board shall decline to make the proposed change, but if it appears to the board that such change will be to the public interest, the board shall issue notice to the owner or owners and tenants of land upon which said proposed road is to be located, directing such owners or tenants to appear before the board at its next regular meeting to show cause, if any, why the proposed change should not be made in accordance with said report of the viewers. At the meeting to which said owners or tenants are so notified to appear the board shall hear such objections to and evidence as may be offered for or against said report, and shall take final action upon said report, either by adopting, amending or rejecting same, unless for good cause action thereon is postponed to another meeting. Any person affected by such decision may appeal from same within thirty days. If change be made in such road the board shall order the damage allowed to be paid out of the county levies for roads and bridges. Each viewer shall be allowed two dollars per day and expenses not exceeding one dollar per day, where such viewer travels over ten miles, and the county or other surveyor shall receive two dollars and fifty cents per day for accompanying said viewer, and making necessary survey, and be paid in addition such sum as the board shall determine, for any map of such change as may be required of him. Said viewers and such expenses to be paid by order of the board of supervisors out of the county levy for roads and bridges.

9. In case the change of a road shall place it on a line dividing two magisterial districts, the commissioner of roads of the adjoining districts shall divide equitably the expense of maintaining said road between said districts. In case they cannot agree the board of supervisors shall divide the same and direct what part of said road shall be kept in repair by each magisterial district.

10. The board of commissioners of roads for each magisterial district at its annual meeting April first, or as soon thereafter as convenient, shall assess and levy a tax upon all property, real and personal, of the magisterial district assessed for State purposes sufficient to pay the expenses of keeping all public roads and bridges in its district in good repair. Bridges across the rivers and the bridges of

thirty feet or more in length across the creeks shall be kept in repair out of the general county levy for roads and bridges. The assessment on property shall not be more in any one year than twenty cents on the one hundred dollars, except as provided for in section twenty-two of this act. The assessment shall be made upon the same basis and subjects as that upon which State revenues are levied.

11. The board of commissioners of roads in each magisterial district shall annually make an estimate of the probable amount necessary to pay all the expenses of keeping in repair the roads and bridges (except such bridges as are kept in repair out of the county levy,) and pay allowances to officers provided for in this act, and other expenses likely to arise under the provisions of this act, and shall, before the first day of August each year, furnish to the county treasurer a statement of taxes assessed against each person in his district, which tax said treasurer shall be required to collect, as other revenues are collected, and for which he shall receive a like compensation. The funds coming into the hands of the county treasurer under the provisions of this act shall be kept separate, and shall be held by him subject to the order of the board of commissioners of roads to be expended in such manner as in its judgment is for the best interest of the roads. All funds collected in any one district shall be expended in that district.

12. No person shall be required to work on public roads or bridges without compensation.

13. It shall be lawful for the board hereby constituted to take charge of and have worked and kept in good repair al public roads and bridges heretofore or hereafter established within their respective districts as herein provided (except river and creek bridges referred to in section ten of this act). The work may be done by the day under competent overseers, who shall furnish the commissioner of roads with a statement of account once a month. The said board may enter into contract for the repair of any part or sections of roads if they deem it to the best interest of the district so to do. Said road to be kept clear of falling timber, loose stones, and to be raised in the center and sloped each side to ditches of sufficient width and depth to carry off all surplus water.

14. The board of commissioners of roads shall have the authority to purchase any tools, machinery and materials out of its respective district funds, for use in making and repairing the roads and bridges of its district, as herein provided for.

15. The board of supervisors, in its discretion, may purchase any machinery and pay for same out of the county levy for roads and bridges, for the purpose of aiding the magisterial district in making and repairing the public roads of the county and district. It may appropriate out of said funds, or the general county levy, for the purpose of permanent road improvement in any district or districts, such amount as may be necessary to secure any State money aid available for said district or districts, or to secure convict labor for said permanent improvement of

said roads. In case the board of supervisors declines to appropriate the necessary funds required by the State law to secure State money aid or procure State convict labor, then the board of commissioners of roads of each magisterial district shall have the authority, with the consent of the board of supervisors, to make appropriations out of district funds, or funds raised by private contributions, such amounts as are necessary to assure State money aid or convict labor: provided, in such event the county shall not be chargeable with any liability or expense by reason of any district thus procuring any liability or expense by reason of any district thus procuring any State road improvement fund or convict labor.

The cost of expenditure per mile in the permanent improvement of the public road shall be determined by the State highway commissioner and the board of commissioners of the roads in their district or districts in which the improvement is to be made. The distribution of the State and county aid may be made between the districts of the county, on such basis as a majority of the board of supervisors in their judgment may deem right and just: provided, that no part of the State aid fund which would be due any district, upon an equitable distribution of same, based upon the tax paid into the State treasury by said district, shall be taken from that district and used elsewhere, unless the board of commissioners of roads in said district declines to use same on roads in said district, and gives its consent in writing, signed by a majority of the board, that said amount may be expended elsewhere, said writing to be filed with and preserved as a part of the records of the board of supervisors.

16. The commissioner of roads is authorized and empowered to demand of either of the other members of the district boards to go to any point in the district, to assist in the duties incumbent upon the board of the district, and each shall have a compensation for such service of two dollars per day, while in actual discharge of such duties, payable out of the district fund.

17. The majority of the entire board of supervisors may adopt any part of the general road law not in conflict with this act.

18. At the discretion of the board of commissioners of roads and by order of said board the road commissioner shall measure all roads in his district, and divide them, or any part thereof, into such sections as in his judgment he may deem best and most economical.

The road commissioner shall report to the board of commissioners of roads of his district, by April first, or as soon thereafter as possible, the number of sections of roads and the number of miles in each section when said board may proceed to apportion such amount to each section as in their judgment is an equitable amount to each section, according to conditions and needs, and may at the same time appoint a good and competent overseer for each section thus worked, who shall have immediate supervision over the work to be done in this section.

Said board may have worked remaining sections in such manner as

in their judgment is to the best interest in working such roads. The overseer shall at such time as directed by the road commissioner proceed to hire hands and teams and work his road as directed by the road commissioner, who shall have authority over contractors and overseers, and when tools and materials are neccessary the commissioner shall report to the board of commissioners of road, which may order him to purchase same. The board shall have the right to remove an overseer or contractor at any time and work the road otherwise if in its judgment it would be best.

19. The road board shall meet as hereinafter provided from time to time, not to exceed twelve times in any one year; its members shall be paid two dollars per day for each day actually employed in the discharge of their duties under this act, and shall be paid by warrant on the county treasurer issued by said board as hereinafter prescribed.

20. The supervisor of each district shall be ex-officio chairman of the board of commissioners of roads for his district; all warrants on the county treasurer to pay all expenses of each district shall be signed by the clerk of the said board and the commissioner of roads, and countersigned by the chairman.

21. Each overseer provided for in this act shall be charged with all tools and machinery furnished him by the district road board, giving his receipt for the same, and on his retirement shall turn them over to his successor, or to the commissioner of roads, taking a receipt for same. The compensation of each overseer shall be fixed by the board of commisioner of roads, not to exceed one dollar and fifty cents per day, and he is to perform work on the roads with other hands. All laborers under such overseer shall have the compensation fixed by the board not to exceed one dollar and twenty-five cents per day for the time actually engaged in the discharge of their duties under this act; not less than ten hours of actual work shall be considered a day's work.

22. That the commissioner of roads from each magisterial district shall meet at the courthouse of the county with the board of supervisors at a time to be fixed by the board of supervisors, and shall act with said board in the consideration of the road question, and to make any changes within the limits of the law they may deem best for the making, changing and working the public roads of Rockingham county, and by a majority vote of all the supervisors and commissioners of roads present may order the road levies of all the districts, or a part of the districts raised to an amount not to exceed thirty cents on one hundred dollars of assessed property, both real and personal, in any one year, and should it be determined that the levy for any one year should be raised over twenty cents on the one hundred dollars of assessed property, both real and personal, of any district or districts, then there shall be not less than ten cents nor more than fifteen cents of said levy on the one hundred dollars used for permanent road improvement.

23. The general road law of this State, except so far as the same is in conflict with this act, shall be in force in the county of Rockingham.

24. All acts or parts of acts in conflict with this act are hereby repealed.
